E4D Behavioral/Social Science Courses

The following list of courses are suggestions to meet the Behavioral/Social Science Courses requirement for the E4D minor. This is listed as requirement (2) in the undergraduate catalog as follows:

> *2. Behavioral/Social Science Courses 6 hours*
>
> > *Two behavioral/social science courses that functionally support the Engineering for Development ideology. See the Engineering for Development Program Director to agree upon a two-course plan (6 hours) that meets the requirements for the minor.*

It is the intent of the E4D Program Director to work with E4D students to tailor the minor to meet their interests while still aligning with the purpose and intent of the E4D minor.

The below listed courses are suggestions and the list is considered incomplete. If a student is interested in taking a course which is not found in the list below, he/she is encouraged to discuss with the E4D Program Director for possible adoption to the list below. Additionally, there are many "Special Topics" courses that are not found in the undergraduate catalog which might be acceptable, some examples include:

- BUS 477 Special Topics in Business (Social Business)
- IGS 380 Special Advanced Topics in Global Studies (Disaster Relief and Resiliency)
